

GOVERNING BODY TABLETOP PACKET

COVER

Q1 2026 Tabletop Packet

CARE INDEED HOME HEALTH CARE, INC.

Q1 2026 — Baseline Under Pressure

Every one of this quarter's risks is new — that is a reason to get the record right from the start, not a reason to wait and see.

SYNTHETIC MOCK DATA - NO REAL PHI - NOT FOR PRODUCTION

All records in this packet are approved synthetic case-pack data. This packet is not production evidence and contains no legal signature, vote, quorum determination, or completed action beyond what the normalized case pack supports.

CLASSIFICATION

SYNTHETIC MOCK DATA - NO REAL PHI - NOT FOR PRODUCTION

SOURCE CUTOFF

2026-04-09

ARTIFACT STATUS

Review required

SOURCE MODEL

tabletop2026-q1

RELIANCE

Not approved for UAT until human visual and evidentiary review is complete

Use limitation

The Q1 exemplar supplied by the user informed typography, color, hierarchy, and table treatment only. No fictional name, metric, signature, quorum, vote, approval, or lock-ready claim from that exemplar is a factual source for this packet.

Evidence integrity

Unresolved values remain unresolved.
Supplemental UAT records remain labeled. Post-cutoff items do not rewrite historical measurement posture.

Approval boundary

Viewing this PDF does not approve the case, satisfy readiness, create evidence, or complete a tabletop attempt.

FRONT MATTER

How to Read This Packet

- Evidence first.**

Review source posture, cutoff, conflicts, and traceability before reading a conclusion.
- Executive narrative second.**

Each narrative statement points back to a Part B exhibit or decision node.
- Forms and outputs last.**

Forms are listed only when the case pack or workflow requires them; no blank forms are added.

Recovered source

Calculated from recovered source

Supplemental synthetic UAT

Not recovered / unresolved

FRONT MATTER

QA Reconciliation and Readiness Summary

Recovered source

38 / 45

Numerator: recovered exhibits. Denominator: all case exhibits.

Calculated

0 / 45

Numerator: calculated exhibits. Denominator: all case exhibits.

Supplemental UAT

7 / 45

Numerator: supplemental UAT exhibits. Denominator: all case exhibits.

Unresolved

0 / 45

Numerator: unresolved exhibits. Denominator: all case exhibits.

Control	Current posture	Required review
Source cutoff	2026-04-09	Verify every displayed record is allowed through this cutoff.
Conflict groups	4	Resolve reliance by affected matter; never smooth conflicts.
Conflicting exhibits	4	Confirm each is visible and linked to its source.
Required workflows	8	Confirm workflow coverage is case-supported.
Artifact disposition	Review required	Human visual and evidentiary review is mandatory before approved_for_uat.

PART B

Controlling Evidence

Build and validate the evidence record before relying on an executive narrative.

PART B - EVIDENCE

Evidence Detail

EX-Q1-001 QAPI Meeting Control Record — Q1 2026

SOURCE	POSTURE	AS OF	VALIDATION
QA-WF-03 Q1 Meeting Control	Recovered source	2026-04-09	validated

Feeder-audit deadline 2026-04-02, GB package deadline 2026-04-02, QAPI meeting 2026-04-09, minutes due 2026-04-16 (owner: Clinical Manager). Policy basis QA-PG-001, QA-PG-002, GV-GB-001.

- Required sign-offs: Administrator, Clinical Manager, QAPI Committee Chair (see EX-Q1-004).
- Population context: census grew 105 (Jan 1) to 120 (Mar 31); 22 new SOC, 14 discharged, 3 transferred, 127 episodes tracked, 28 clinicians on staff.
- 5 hospitalizations and 3 ED-visits-without-hospitalization occurred this quarter (see EX-Q1-017/018/019).
- This is the baseline quarter of SVHHA's FY2026 QAPI cycle — nothing carried forward predates it.

EX-Q1-002 QAPI Committee Attendance & Quorum (Feeder Body)

SOURCE	POSTURE	AS OF	VALIDATION
ATT-Q1-001 / QUO-Q1-001	Recovered source	2026-04-09	validated

9 of 9 QAPI Committee members present; committee quorum = 5; quorum confirmed 9:02 AM by the QAPI Committee Chair.

- This is the QAPI COMMITTEE's own attendance/quorum record — a clinical-operations feeder body, not the Governing Body board.
- Citing this record as evidence of Governing Body quorum conflates two different bodies with two different rosters and thresholds — see EX-Q1-003.

EX-Q1-003 Governing Body Attendance & Quorum — Q1 Meeting

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-04-09	validated

7 total board seats (clinical/community/financial composition mix); 1 vacant as of tonight's meeting (see EX-Q1-045); 6 seated directors, all present.

- Board composition: 7 total seats. 1 vacant — the community-member director's term expired 2026-01-31 (EX-Q1-045); replacement not yet seated.
- 6 seated directors present tonight. No absences among seated directors.
- One seated director has filed a conflict-of-interest disclosure on tonight's vendor-contract matter (EX-Q1-042) and must recuse from that vote.
- Authored because the Governing Body's own roster/attendance/quorum has no counterpart in the recovered QAPI source (Section 12 covers the QAPI Committee only — see EX-Q1-002).

PART B - EVIDENCE

Evidence Detail - continued 2

EX-Q1-004 Required Packet Sign-offs — Signed

SOURCE	POSTURE	AS OF	VALIDATION
SGN-Q1-ADM-001 / SGN-Q1-CM-001 / SGN-Q1-CHAIR-001	Recovered source	2026-04-09	validated

Administrator, Clinical Manager, and QAPI Committee Chair all signed 2026-04-09.

- All 3 required sign-offs present and dated the meeting date.
- No sign-off is missing or dated after the meeting.

EX-Q1-005 GB Escalation Items — 4 Items Escalated

SOURCE	POSTURE	AS OF	VALIDATION
GB-Q1-001	Recovered source	2026-04-09	validated

The QAPI Committee escalated 4 items to the Governing Body: the sepsis case (AE-Q1-004), the interpreter-failure complaint (COMP-Q1-005), the OASIS accuracy trend (PIP-TRIG-Q1-001), and the doc-to-claim mismatch findings (PIP-TRIG-Q1-008).

- Escalation record confirms these 4 items are properly before the Board tonight, not merely a QAPI Committee matter.
- See EX-Q1-041 — the source contains this escalation log entry but NO Board motion/vote/directive record for any of the 4 items.

EX-Q1-006 Packet Readiness Confirmation

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-04-25	validated

Confirmation record that the quarter's QAPI packet passed the readiness gates required to convene the Board.

- Source integrity checked, meeting control assembled, feeder audits present, required sign-offs complete.
- No unresolved critical data-quality defect blocks convening on this packet.

PART B - EVIDENCE

Evidence Detail - continued 3

EX-Q1-007 GB Decision Motion Shell — Q1 Escalated Matters

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-04-09	provisional

A blank motion-record scaffold for tonight's 4 escalated items, authored because the source has no GB motion/vote/directive record for GB-Q1-001 (see EX-Q1-041).

- Exists solely to let the Board record its actual motion/vote/directive for each escalated matter tonight.
- Never a substitute for the Board's own deliberation — it carries no pre-filled outcome.
- Treat as a UAT workflow-completeness supplement only; a real Board decision record is required for production per DQ-2026-003.

EX-Q1-008 Critical-Status Quality Metrics — Q1 2026

SOURCE	POSTURE	AS OF	VALIDATION
QM-Q1-007..009, 013..015, 019..024	Recovered source	2026-03-31	validated

Four metrics closed the quarter in critical status: Medication Reconciliation (72.7% -> 79.2%, target >=95%), Missed Visit Rate (3.8% -> 4.6%, target <=2%), Wound Infection Rate (0.7% -> 3.3% -> 2.9%, target <=5%, PIP-trigger spike), and Complaint Resolution Timeliness (66.7% -> 62.5%, target >=90%).

- Medication Reconciliation at SOC/ROC: Jan 72.7% (16/22), Feb 78.3% (18/23), Mar 79.2% (19/24). Status: critical.
- Missed Visit Rate: Jan 3.8% (7/185), Feb 4.2% (8/190), Mar 4.6% (9/195). Status: critical.
- Wound Infection Rate: Jan 0.7%, Feb 3.3%, Mar 2.9%. Status: critical (PIP-trigger spike). The recovered source gives these rates without a clean separable monthly numerator/denominator — see DQ note on EX-Q1-024/029.
- Complaint Resolution Timeliness (<=5 days): Jan 66.7% (4/6), Feb 71.4% (5/7), Mar 62.5% (5/8). Status: critical.

EX-Q1-009 Below-Target Quality Metrics — Q1 2026

SOURCE	POSTURE	AS OF	VALIDATION
QM-Q1-001..003, 004..006, 010..012	Recovered source	2026-03-31	validated

Three metrics closed below target but not critical: OASIS Accuracy (82.2% -> 84.2%, target >=90%), Visit Documentation Timeliness (85.6% -> 86.9%, target >=95%), and POC Goal Documentation Completeness (80.0% -> 80.0%, target >=92%).

- OASIS Accuracy Rate: Jan 82.2% (74/90), Feb 83.7% (77/92), Mar 84.2% (80/95). Status: below target, PIP trigger.
- Visit Documentation Timeliness (<24h): Jan 85.6% (101/118), Feb 86.7% (104/120), Mar 86.9% (106/122). Status: below target, PIP trigger.
- POC Goal Documentation Completeness: Jan 80.0% (88/110), Feb 80.4% (90/112), Mar 80.0% (92/115). Status: below target, PIP trigger — flat, no improvement across the quarter.

PART B - EVIDENCE

Evidence Detail - continued 4

EX-Q1-010 Hospitalization Rate — Within Target

SOURCE	POSTURE	AS OF	VALIDATION
QM-Q1-016..018	Recovered source	2026-03-31	validated

Jan 1.9%, Feb 1.8%, Mar 0.8% — all within the <=3% target and improving.

- The only Q1 metric that is fully within target all three months.
- Not a PIP trigger; not itself controlling for any decision this meeting.

EX-Q1-011 Feeder Audit — Visit Note Timeliness

SOURCE	POSTURE	AS OF	VALIDATION
AUD-Q1-CL-003	Recovered source	2026-03-31	validated

Visit note timeliness: 13.1% late beyond 24 hours.

- Reviewer: MOCK-CLIN-0017. Signed 2026-03-31.
- Corroborates the recommended-action link between PIP-TRIG-Q1-003 and DISC-TRIG-Q1-001 (EX-Q1-026, EX-Q1-032).

EX-Q1-012 Feeder Audit — Medication Reconciliation Completion

SOURCE	POSTURE	AS OF	VALIDATION
AUD-Q1-CL-004	Recovered source	2026-03-31	validated

Med rec completed at SOC 79.2% — flagged as a critical gap.

- Reviewer: MOCK-CLIN-0002. Signed 2026-03-31.
- Corroborates PIP-TRIG-Q1-004 (EX-Q1-027).

PART B - EVIDENCE

B3.5

Evidence Detail - continued 5

EX-Q1-013 Feeder Audit — Wound Infection Cluster

SOURCE	POSTURE	AS OF	VALIDATION
AUD-Q1-CL-008	Recovered source	2026-04-02	validated

Wound infection cluster: 4 infections in February across 3 different clinicians.

- Reviewer: MOCK-CLIN-0017 (also the Infection Control Coordinator and CAP-Q1-003 owner — see EX-Q1-038).
- The 3-clinician spread is what makes this a systemic (not single-clinician) pattern — directly grounds PIP-TRIG-Q1-006 (EX-Q1-029).

EX-Q1-014 Feeder Audit — Documentation-to-Claim Mismatch

SOURCE	POSTURE	AS OF	VALIDATION
AUD-Q1-CO-001	Recovered source	2026-03-30	validated

Doc-to-claim mismatch on 6 claim lines (LVN visit billed as RN).

- Reviewer: MOCK-CLIN-0025 (Compliance Officer). Signed 2026-03-30.
- Grounds PIP-TRIG-Q1-008 (EX-Q1-031) together with EX-Q1-015.

EX-Q1-015 Feeder Audit — Overpayment Identified

SOURCE	POSTURE	AS OF	VALIDATION
AUD-Q1-CO-005	Recovered source	2026-04-01	validated

Overpayment check: \$1,200 identified — voluntary refund initiated.

- Reviewer: MOCK-CLIN-0025. Signed 2026-04-01.
- The refund being "initiated" is a management action already taken; it is not itself a completed CAP-effectiveness fact.

PART B - EVIDENCE

Evidence Detail - continued 6

EX-Q1-016 Feeder Audit — CAP Tracker Status Note

SOURCE	POSTURE	AS OF	VALIDATION
AUD-Q1-QA-003	Recovered source	2026-04-01	conflicting

CAP tracker updated; 4 items open, 2 overdue (remediated by 2026-04-02).

- Reviewer: MOCK-CLIN-0026 (QAPI Committee Chair). Signed 2026-04-01.
- This note is about audit-tracking timeliness, not CAP closure — see EX-Q1-037/038, which both still show status "Open" with due dates in late April.
- Reading "remediated" as "CAP closed" is a genuine reconciliation trap this exhibit is built to test (see DN-06).

EX-Q1-017 Adverse Event — CHF Exacerbation Hospitalization (RCA Complete)

SOURCE	POSTURE	AS OF	VALIDATION
AE-Q1-001	Recovered source	2026-01-18	validated

High-severity CHF exacerbation hospitalization; RCA complete (missed weight-gain documentation, delayed escalation); CAP assigned.

- Status: RCA Complete — CAP assigned.
- Already closed out procedurally this quarter — not the open risk the Board must act on tonight (contrast EX-Q1-018).

EX-Q1-018 Adverse Event — Sepsis Hospitalization (RCA In Progress)

SOURCE	POSTURE	AS OF	VALIDATION
AE-Q1-004	Recovered source	2026-03-03	validated

Critical-severity sepsis hospitalization. RCA-Q1-003 finding: infection signs present on a prior visit note but not escalated for 36 hours. Status: RCA In Progress.

- Linked CAP: CAP-Q1-003 (EX-Q1-038). Linked disciplinary matter: DISC-TRIG-Q1-005 (EX-Q1-036).
- One of the 4 items escalated to the Governing Body this quarter (EX-Q1-005).
- Status is explicitly "In Progress" — not yet closed; do not treat as resolved.

PART B - EVIDENCE

B3.7

Evidence Detail - continued 7

EX-Q1-019 Adverse Event — Pneumonia Hospitalization (No RCA Required)

SOURCE	POSTURE	AS OF	VALIDATION
AE-Q1-005	Recovered source	2026-03-19	validated

High-severity pneumonia hospitalization; rapid deterioration with no prior warning signs documented.
Closed — no systemic finding.

- RCA required: No.
- Included to test whether every hospitalization is mistaken for an escalation-worthy systemic event.

EX-Q1-020 Infection Line List — 4 Resolved Wound Infections

SOURCE	POSTURE	AS OF	VALIDATION
INF-Q1-001..004	Recovered source	2026-03-05	validated

4 wound infections (surgical site, DM foot, pressure injury, post-surgical), all resolved by early March with antibiotic/protocol interventions.

- All 4 marked Resolved.
- The live, unresolved risk this quarter is the 5th, ongoing case — see EX-Q1-021.

EX-Q1-021 Infection Line List — Sepsis Secondary to Wound (Ongoing)

SOURCE	POSTURE	AS OF	VALIDATION
INF-Q1-005	Recovered source	2026-03-02	validated

Sepsis secondary to wound infection; onset 2026-03-02; hospitalized; RCA initiated. Status: Under Investigation.

- Directly linked to AE-Q1-004 (EX-Q1-018) and DISC-TRIG-Q1-005 (EX-Q1-036).
- No resolution date — still open as of the meeting.

PART B - EVIDENCE

B3.8

Evidence Detail - continued 8

EX-Q1-022 Complaint — Interpreter Not Arranged Despite Request

SOURCE	POSTURE	AS OF	VALIDATION
COMP-Q1-005	Recovered source	2026-03-07	validated

Communication complaint; interpreter not arranged despite request; resolved in 12 days against a <=5-day policy target; closed — escalated to Governing Body.

- One of the 4 items escalated to the Governing Body this quarter (EX-Q1-005).
- A 48-hour media inquiry about a related patient-care incident has since been received (EX-Q1-044).

EX-Q1-023 Complaint — Consistent Late Arrivals by HHA

SOURCE	POSTURE	AS OF	VALIDATION
COMP-Q1-006	Recovered source	2026-03-22	validated

Scheduling complaint; consistent late arrivals by a home health aide; open — CAP initiated; not escalated to the Governing Body.

- Not one of the 4 GB-escalated items — do not conflate with EX-Q1-022.

EX-Q1-024 PIP-TRIG-Q1-001 — OASIS Accuracy Below Threshold

SOURCE	POSTURE	AS OF	VALIDATION
PIP-TRIG-Q1-001	Recovered source	2026-03-31	validated

OASIS accuracy 82-84% vs >=90% for 3 consecutive months; M/GG item support gaps. Severity: High. Status: Active — PIP-Q1-001 initiated.

- Source records: QM-Q1-001/002/003, AUD-Q1-CL-001, AUD-Q1-CL-009.
- One of the 4 items escalated to the Governing Body this quarter (EX-Q1-005).

PART B - EVIDENCE

Evidence Detail - continued 9

EX-Q1-025 PIP-TRIG-Q1-002 — POC Goal Documentation Deficiency

SOURCE	POSTURE	AS OF	VALIDATION
PIP-TRIG-Q1-002	Recovered source	2026-03-31	validated

POC missing patient-specific goals in 20% of charts; discipline justification absent in 18% of OT/SLP charts. Severity: High. Status: Active — PIP-Q1-002 initiated.

- Source records: QM-Q1-010/011/012, AUD-Q1-CL-002, AUD-Q1-CL-012.

EX-Q1-026 PIP-TRIG-Q1-003 — Visit Documentation Timeliness Below Target

SOURCE	POSTURE	AS OF	VALIDATION
PIP-TRIG-Q1-003	Recovered source	2026-03-31	validated

13.1% of visit notes late beyond 24h; persistent 3-month trend. Severity: High. Recommended action: PIP + disciplinary review (DISC-TRIG-Q1-001). Status: Active.

- Source records: QM-Q1-004/005/006, AUD-Q1-CL-003.
- The recommended-action note names DISC-TRIG-Q1-001 (EX-Q1-032), which is itself only "Referred to HR," not yet adjudicated — do not treat the disciplinary review as already concluded.

EX-Q1-027 PIP-TRIG-Q1-004 — Medication Reconciliation Gap at SOC/ROC

SOURCE	POSTURE	AS OF	VALIDATION
PIP-TRIG-Q1-004	Recovered source	2026-03-31	validated

Med rec rate 72-79% vs >=95% threshold; systemic process gap identified. Severity: Critical. Status: Active — PIP-Q1-004 initiated.

- Source records: QM-Q1-007/008/009, AUD-Q1-CL-004.
- CAP-Q1-002 already opened against this trigger (EX-Q1-037).

PART B - EVIDENCE

B3.10

Evidence Detail - continued 10

EX-Q1-028 PIP-TRIG-Q1-005 — Missed Visit Rate Above Threshold

SOURCE	POSTURE	AS OF	VALIDATION
PIP-TRIG-Q1-005	Recovered source	2026-03-31	validated

Missed visit rate increased from 3.8% to 4.6%; physician/patient notification incomplete in 5 of 24 cases. Severity: High. Status: Active — PIP-Q1-005 initiated.

- Source records: QM-Q1-013/014/015, AUD-Q1-CL-007.
- Recommended action ties loosely to DISC-TRIG-Q1-003 (EX-Q1-034) via the missed-visit pattern, not a formal linkage on the trigger record itself.

EX-Q1-029 PIP-TRIG-Q1-006 — Wound Infection Surveillance Spike

SOURCE	POSTURE	AS OF	VALIDATION
PIP-TRIG-Q1-006	Recovered source	2026-03-15	validated

Wound infection rate 10-13% vs <=5% threshold; repeat wound infections across 3 clinicians; sepsis event. Severity: Critical. Recommended action: PIP + infection control protocol review. Status: Active — PIP-Q1-006 initiated.

- Source records: QM-Q1-019/020/021, AUD-Q1-CL-008, INF-Q1-001 through 005.
- The most severe Q1 signal: it is the only trigger directly linked to a hospitalization (AE-Q1-004/EX-Q1-018) and a critical disciplinary hold (DISC-TRIG-Q1-005/EX-Q1-036).

EX-Q1-030 PIP-TRIG-Q1-007 — Complaint/Grievance Communication Trend

SOURCE	POSTURE	AS OF	VALIDATION
PIP-TRIG-Q1-007	Recovered source	2026-03-31	validated

3 of 6 complaints involved communication failures; resolution rate 62-67% vs >=90% threshold. Severity: Critical. Status: Active — PIP-Q1-007 initiated.

- Source records: QM-Q1-022/023/024, COMP-Q1-001/003/005, AUD-Q1-RM-004.
- COMP-Q1-005 (EX-Q1-022), the GB-escalated interpreter complaint, is one of the 3 named communication-failure complaints.

PART B - EVIDENCE

Evidence Detail - continued 11

EX-Q1-031 PIP-TRIG-Q1-008 — Documentation-to-Claim Mismatch

SOURCE	POSTURE	AS OF	VALIDATION
PIP-TRIG-Q1-008	Recovered source	2026-03-30	validated

6 claim lines with doc-to-claim mismatch; \$1,200 overpayment identified; voluntary refund initiated.
Severity: High. Recommended action: PIP + compliance review. Status: Active — PIP-Q1-008 initiated.

- Source records: AUD-Q1-CO-001, AUD-Q1-CO-005.
- One of the 4 items escalated to the Governing Body this quarter (EX-Q1-005). CAP-Q1-005 opened against this trigger (EX-Q1-039).

EX-Q1-032 Disciplinary Matter — Repeated Late Documentation After Prior Coaching

SOURCE	POSTURE	AS OF	VALIDATION
DISC-TRIG-Q1-001	Recovered source	2026-03-15	validated

Clinician reference MOCK-CLIN-0018 (RN). 18 late visit notes in Q1 despite Q4 2025 coaching.
Severity: High. Recommended action: written warning. Status: Referred to HR.

- This is an HR-level (not GB executive-session) matter — severity is High, not Critical, and it is not patient-safety-linked.
- Do not conflate with the two Critical, GB-level matters (EX-Q1-035/036).

EX-Q1-033 Disciplinary Matter — Copy-Forward / Cloned Visit Narratives

SOURCE	POSTURE	AS OF	VALIDATION
DISC-TRIG-Q1-002	Recovered source	2026-03-22	validated

Clinician reference MOCK-CLIN-0016 (HHA). 8 consecutive visit notes for 2 patients contain identical narrative text. Severity: High. Recommended action: education + monitoring plan. Status: Referred to HR.

- HR-level matter — High severity, not escalated to the Governing Body.

PART B - EVIDENCE

Evidence Detail - continued 12

EX-Q1-034 Disciplinary Matter — Missed Visit Not Reported Timely

SOURCE	POSTURE	AS OF	VALIDATION
DISC-TRIG-Q1-003	Recovered source	2026-02-21	conflicting

Clinician reference MOCK-CLIN-0019 (LVN). 3 missed visits not reported within the required 2-hour window. Severity: High. Recommended action: performance improvement plan. Status: In Progress.

- Source record ids include COMP-Q1-004 — that underlying complaint's own status is "Closed," while this disciplinary review remains "In Progress." Track each record by its own status; a closed complaint does not mean the linked disciplinary review is also closed.
- HR-level matter — High severity, not escalated to the Governing Body.

EX-Q1-035 Disciplinary Matter — Unauthorized Documentation Change After Chart Review

SOURCE	POSTURE	AS OF	VALIDATION
DISC-TRIG-Q1-004	Recovered source	2026-03-28	validated

Clinician reference MOCK-CLIN-0003 (RN). Visit note amended 11 days after entry without documented clinical reason; amendment not countersigned. Severity: Critical. Recommended action: suspension pending investigation. Status: Under Investigation.

- Critical severity + a record-integrity finding (a retroactive, uncountersigned amendment) — this is a Governing-Body-level restricted matter requiring executive session (GV-WF-09).
- A different clinician and a different matter than DISC-TRIG-Q1-005 (EX-Q1-036) — do not conflate the two critical matters.

EX-Q1-036 Disciplinary Matter — Failure to Follow Escalation/Reporting Chain (Patient Safety)

SOURCE	POSTURE	AS OF	VALIDATION
DISC-TRIG-Q1-005	Recovered source	2026-03-04	validated

Clinician reference MOCK-CLIN-0004 (LVN). Signs of wound infection/sepsis documented 2026-03-02 but not escalated for 36 hours; patient hospitalized with sepsis. Severity: Critical. Recommended action: immediate retraining + supervision. Status: RCA pending — disciplinary hold.

- Directly linked to AE-Q1-004/EX-Q1-018 (sepsis hospitalization) and INF-Q1-005/EX-Q1-021.
- Patient-safety-linked and Critical — requires executive session (GV-WF-09); the systemic corrective action is owned separately from the individual disciplinary review (see DN-12).

PART B - EVIDENCE

Evidence Detail - continued 13

EX-Q1-037 CAP-Q1-002 — Medication Reconciliation Corrective Action

SOURCE	POSTURE	AS OF	VALIDATION
CAP-Q1-002	Recovered source	2026-04-30	validated

Med rec protocol re-education + checklist implementation at SOC/ROC. Owner: Clinical Manager. Due 2026-04-30. Status: Open.

- Source trigger: PIP-TRIG-Q1-004.
- Status is Open, not Closed — see EX-Q1-016 for a note this exhibit disambiguates.

EX-Q1-038 CAP-Q1-003 — Wound Infection Protocol Revision + Mandatory In-Service

SOURCE	POSTURE	AS OF	VALIDATION
CAP-Q1-003	Recovered source	2026-04-23	validated

Protocol revision + mandatory in-service for field clinicians. Owner: MOCK-CLIN-0017 (also the auditor who found the cluster — see EX-Q1-013). Due 2026-04-23. Status: Open.

- Source trigger: PIP-TRIG-Q1-006 + AE-Q1-004.
- Same individual both identified and owns the fix for this finding — a self-review tension worth naming, though not itself disqualifying without more.

EX-Q1-039 CAP-Q1-005 — Billing Alignment Review

SOURCE	POSTURE	AS OF	VALIDATION
CAP-Q1-005	Recovered source	2026-04-30	validated

Retrain LVN/RN staff on visit-type documentation matching billed service. Owner: Compliance Officer. Due 2026-04-30. Status: Open.

- Source trigger: PIP-TRIG-Q1-008.
- Not the CAP the budget-resourcing request (EX-Q1-043) is written against — see DN-10/DN-11.

PART B - EVIDENCE

Evidence Detail - continued 14

EX-Q1-040 Data-Quality Finding — Clinician IDs Reassigned Across Quarters

SOURCE	POSTURE	AS OF	VALIDATION
DQ-2026-001	Recovered source	2026-04-09	conflicting

The MOCK-CLIN-* roster is fully reassigned between Q1 and Q2; the same raw id will denote a different person next quarter.

- Critical-severity finding, affects Q1 and Q2.
- Not itself a controlling fact for any Q1 decision — flagged so Q1-scoped clinician references (EX-Q1-032 through 036) are never later merged across quarters on raw id.

EX-Q1-041 Data-Quality Finding — No GB Motion/Vote Record for Escalated Matters

SOURCE	POSTURE	AS OF	VALIDATION
DQ-2026-003	Recovered source	2026-04-09	conflicting

GB-Q1-001 (EX-Q1-005) records that 4 items were escalated; the source contains no Board motion/vote/directive record for the Board's actual decision on any of them.

- Warning-severity finding.
- This is exactly why EX-Q1-007 (the motion shell) exists — a labeled UAT supplement only, not a stand-in for a real decision record.

EX-Q1-042 Conflict of Interest Disclosure — Vendor Contract Matter

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-04-02	validated

A director disclosed a financial interest in a vendor whose contract renewal is before the Board this quarter.

- Director holds an equity interest in the vendor entity under consideration for contract renewal.
- Disclosure submitted in advance of the meeting per the conflict-of-interest policy.
- Recusal from deliberation and vote on the vendor matter is the policy-required response.

PART B - EVIDENCE

Evidence Detail - continued 15

EX-Q1-043 Budget Authorization Request — CAP Resourcing

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-05-20	validated

Management requests Board authorization of the staffing and system resources the current CAP identified as required to sustain the fix.

- Requested resources: 0.5 FTE quality-review staffing and a documentation-audit tool license.
- The CAP's own effectiveness criteria assume these resources are in place by next quarter close.
- Without authorization, the CAP's effectiveness cannot be sustained per its own stated design.

EX-Q1-044 Media Incident Notice

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-06-22	validated

A local news inquiry was received regarding a patient-care incident already under internal review.

- Inquiry received from a local outlet requesting comment within 48 hours.
- Internal RCA on the underlying incident is in progress and not yet complete.
- No confirmed clinical findings should be disclosed publicly ahead of RCA completion.

EX-Q1-045 Board Roster Change — Community Member Seat

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-02-10	validated

A community-member director's term expired and a replacement candidate was proposed for Board seating.

- Outgoing director: term expired 2026-01-31, no disqualifying findings on file.
- Proposed director: community-member category, background/eligibility screen on file.
- Composition mix (clinical / community / financial) remains compliant if seated as proposed.

PART B - EVIDENCE

Conflict, Gap, and Reliance Register

q1-cap-status

CAP status does not reconcile

Question: Does “remediated” prove CAP closure, or only that the overdue tracker condition was corrected?

Why it matters: Treating tracker remediation as CAP closure would let the Board rely on an outcome the source does not establish.

Affected evidence: EX-Q1-016, EX-Q1-037

Cutoff: 2026-04-09

q1-quorum-records

The attendance records describe different bodies

Question: Does the QAPI Committee attendance record prove that the Governing Body itself can convene?

Why it matters: The Board may not rely on a feeder committee roster to prove its own legal authority to convene.

Affected evidence: EX-Q1-002, EX-Q1-003

Cutoff: 2026-04-09

PART B - EVIDENCE

Conflict, Gap, and Reliance Register - continued 2

q1-wound-rate

Wound-rate figures use different evidence frames

Question: Can the monthly rate points be treated as resolving the quarter-close systemic trigger?

Why it matters: A favorable-looking monthly series cannot erase a separately supported systemic cluster and patient-safety trigger.

Affected evidence: EX-Q1-008, EX-Q1-029

Cutoff: 2026-04-09

q1-missing-board-record

The escalation has no completed Board decision record

Question: May a blank synthetic motion shell be treated as proof that the Board already acted?

Why it matters: The packet may prove that matters reached the Board without proving what the Board decided.

Affected evidence: EX-Q1-005, EX-Q1-007

Cutoff: 2026-04-09

PART B - EVIDENCE

PART A

Executive Narrative

Every statement below is anchored to a Part B source or decision record.

PART A - EXECUTIVE NARRATIVE

Evidence, Risk, Decisions, and Readiness

Evidence story

EX-Q1-001: Feeder-audit deadline 2026-04-02, GB package deadline 2026-04-02, QAPI meeting 2026-04-09, minutes due 2026-04-16 (owner: Clinical Manager). Policy basis QA-PG-001, QA-PG-002, GV-GB-001.

Recovered source

EX-Q1-002: 9 of 9 QAPI Committee members present; committee quorum = 5; quorum confirmed 9:02 AM by the QAPI Committee Chair.

Recovered source

EX-Q1-003: 7 total board seats (clinical/community/financial composition mix); 1 vacant as of tonight's meeting (see EX-Q1-045); 6 seated directors, all present.

Supplemental synthetic UAT

EX-Q1-004: Administrator, Clinical Manager, and QAPI Committee Chair all signed 2026-04-09.

Recovered source

EX-Q1-005: The QAPI Committee escalated 4 items to the Governing Body: the sepsis case (AE-Q1-004), the interpreter-failure complaint (COMP-Q1-005), the OASIS accuracy trend (PIP-TRIG-Q1-001), and the doc-to-claim mismatch findings (PIP-TRIG-Q1-008).

Recovered source

EX-Q1-006: Confirmation record that the quarter's QAPI packet passed the readiness gates required to convene the Board.

Supplemental synthetic UAT

Risk story

0 unresolved and 4 conflicting exhibits require explicit reliance judgment. 4 authored conflict groups affect the case.

Decisions and accountability

18 case-supported decision nodes require evidence-linked action. Required workflows: GV-WF-01, GV-WF-02, GV-WF-05, GV-WF-06, GV-WF-07, GV-WF-08, GV-WF-09, GV-WF-13.

Reliance determination

This artifact remains REVIEW REQUIRED. It does not claim lock readiness, a completed vote, or official approval.

QA

Human Review and Production/UAT Checklist

- Render and inspect every page for clipping, overlap, blank pages, broken glyphs, and unreadable tables.
- Compare every displayed fact to the normalized case-pack source.
- Confirm searchable text, tagged structure, document title/language, bookmarks, and clickable links.
- Confirm every page carries the synthetic classification.
- Confirm no fake signature, vote, quorum, approval, or completed action is presented.
- Approve for UAT only through an authorized human review; generation alone is insufficient.

Human review required

No signature is rendered here. Approval status remains REVIEW REQUIRED until an authorized reviewer records findings outside this generated artifact.
