

GOVERNING BODY TABLETOP PACKET

COVER

Q2 2026 Tabletop Packet

CARE INDEED HOME HEALTH CARE, INC.

Q2 2026 — The Packet Cannot Be Trusted

Sunrise Valley Home Health Agency Governing Body Quarterly Review — a packet that looks complete on its cover and is not: an unreconciled census, reused clinician identities, an unverified complaint summary, a signed-vs-validated gap, a still-open patient-safety escalation, and three governance-continuity matters (roster, conflict of interest, Administrator succession) arriving in the same meeting.

FABLE GENERATED REVIEW REQUIRED SYNTHETIC MOCK DATA - NO REAL PHI - NOT FOR PRODUCTION

PERIOD	SOURCE CUTOFF
Q2 2026	2026-07-10
PACKET ID	VERSION

SYNTHETIC MOCK DATA - NO REAL PHI - NOT FOR PRODUCTION

All records in this packet are approved synthetic case-pack data. This packet is not production evidence and contains no legal signature, vote, quorum determination, or completed action beyond what the normalized case pack supports.

CLASSIFICATION

SYNTHETIC MOCK DATA - NO REAL PHI - NOT FOR PRODUCTION

SOURCE CUTOFF

2026-07-10

ARTIFACT STATUS

Review required

SOURCE MODEL

gb-tabletop-2026-q2

RELIANCE

Not approved for UAT until human visual and evidentiary review is complete

Use limitation

The Q1 exemplar supplied by the user informed typography, color, hierarchy, and table treatment only. No fictional name, metric, signature, quorum, vote, approval, or lock-ready claim from that exemplar is a factual source for this packet.

Evidence integrity

Unresolved values remain unresolved.
Supplemental UAT records remain labeled. Post-cutoff items do not rewrite historical measurement posture.

Approval boundary

Viewing this PDF does not approve the case, satisfy readiness, create evidence, or complete a tabletop attempt.

FRONT MATTER

How to Read This Packet

- Evidence first.**

Review source posture, cutoff, conflicts, and traceability before reading a conclusion.
- Executive narrative second.**

Each narrative statement points back to a Part B exhibit or decision node.
- Forms and outputs last.**

Forms are listed only when the case pack or workflow requires them; no blank forms are added.

Recovered source

Calculated from recovered source

Supplemental synthetic UAT

Not recovered / unresolved

FRONT MATTER

QA Reconciliation and Readiness Summary

Recovered source

29 / 40

Numerator: recovered exhibits. Denominator: all case exhibits.

Calculated

3 / 40

Numerator: calculated exhibits. Denominator: all case exhibits.

Supplemental UAT

6 / 40

Numerator: supplemental UAT exhibits. Denominator: all case exhibits.

Unresolved

2 / 40

Numerator: unresolved exhibits. Denominator: all case exhibits.

Control	Current posture	Required review
Source cutoff	2026-07-10	Verify every displayed record is allowed through this cutoff.
Conflict groups	3	Resolve reliance by affected matter; never smooth conflicts.
Conflicting exhibits	4	Confirm each is visible and linked to its source.
Required workflows	8	Confirm workflow coverage is case-supported.
Artifact disposition	Review required	Human visual and evidentiary review is mandatory before approved_for_uat.

PART B

Controlling Evidence

Build and validate the evidence record before relying on an executive narrative.

PART B - EVIDENCE

PART B - EVIDENCE

Evidence Detail

q2-ex-meeting-control Q2 2026 Meeting Control Record

SOURCE	POSTURE	AS OF	VALIDATION
QAPI-Q2-DS-001	Recovered source	2026-07-10	provisional

QA-WF-03 — Quarterly QAPI Committee Review. Meeting date 2026-07-10; agenda deadline 2026-07-07; feeder-audit deadline 2026-07-02; GB package deadline 2026-07-03; minutes due 2026-07-17 (owner: Clinical Manager).

- Policy basis: QA-PG-001, QA-PG-002, GV-GB-001.
- Required sign-offs for convening: Administrator, Clinical Manager, QAPI Committee Chair.
- No sign-off records were recovered for this quarter — see q2-ex-signoff-status.

q2-ex-signoff-status Q2 Sign-off Status: Zero of Three Recovered

SOURCE	POSTURE	AS OF	VALIDATION
CALCULATED — derived from recovered source figures for this exercise; not itself a source-recovered record.	Calculated from recovered source	2026-07-03	unvalidated

The Q2 quarter record recovers 0 of the 3 required sign-offs (Administrator, Clinical Manager, QAPI Committee Chair). The Q2 packet cover page nonetheless bears a "Reviewed" stamp.

- A "Reviewed" or "signed" stamp on a packet cover page is not evidence of the three required role sign-offs.
- A packet may be internally consistent and still fail the sign-off readiness gate.
- Compare against q2-ex-q1-signoffs, where all three Q1 roles signed on the Q1 meeting date.

q2-ex-q1-signoffs Q1 Sign-off Bundle (for comparison)

SOURCE	POSTURE	AS OF	VALIDATION
QAPI-Q1-DS-001	Recovered source	2026-04-09	validated

All three Q1 required sign-offs are recovered and signed on the Q1 meeting date (2026-04-09): Administrator (Q1:MOCK-CLIN-0028), Clinical Manager (Q1:MOCK-CLIN-0027), QAPI Committee Chair (Q1:MOCK-CLIN-0026).

- SGN-Q1-ADM-001, SGN-Q1-CM-001, SGN-Q1-CHAIR-001 — all status "Signed."
- This is the readiness bar the Q2 packet must be held to, not the bar it currently meets.

PART B - EVIDENCE

Evidence Detail - continued 2

q2-ex-roster-baseline Board Roster & Composition Baseline — Q2

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-07-01	validated

Seven seats exist by bylaws; one community-member seat is currently vacant pending the replacement proposed in q2-ex-sup-roster, leaving 6 directors formally seated as of the Q2 meeting.

- Seated directors as of 2026-07-10: 6 (2 clinical-professional, 3 community-member incl. 1 vacancy, 2 financial/business — composition mix compliant while vacancy is pending fill).
- Bylaws quorum rule (GV-GB-001): a simple majority of seated directors must be present to convene.
- Director designated "Director F" (community-member seat) is the individual who disclosed the vendor equity interest in q2-ex-sup-coi.

q2-ex-attendance-log Attendance Log — Q2 Meeting (2026-07-10)

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-07-10	validated

5 of 6 seated directors are present. Director F (community-member seat, vendor equity interest disclosed) is present at call-to-order but is designated to step out for the vendor-contract deliberation and vote.

- Present at call-to-order: Directors A, B, C, D (clinical/financial seats) and Director F.
- Absent: Director E.
- Director F leaves the room for the vendor-contract agenda item per the conflict-of-interest policy in q2-ex-sup-coi.

q2-ex-population-q1 Q1 Population Summary

SOURCE	POSTURE	AS OF	VALIDATION
QAPI-Q1-DS-001	Recovered source	2026-03-31	validated

Active at start 105; active at close 120; new SOC 22; discharged 14; transferred 3; episodes tracked 127; clinician count 28.

- Baseline quarter; census grew 105→120.

PART B - EVIDENCE

Evidence Detail - continued 3

q2-ex-population-q2 Q2 Population Summary

SOURCE	POSTURE	AS OF	VALIDATION
QAPI-Q2-DS-001	Recovered source	2026-06-30	conflicting

Active at start 100; active at close (recovered) null; new SOC 12; discharged 18; transferred 4; episodes tracked 112; clinician count 30.

- Q2 opens at 100 active — does NOT reconcile with Q1 close of 120 (see data-quality finding DQ-2026-002).

q2-ex-dq-002-census Data-Quality Finding: Census Carry-Forward Does Not Reconcile

SOURCE	POSTURE	AS OF	VALIDATION
DQ-2026-002	Recovered source	2026-07-01	conflicting

Q1 closes at 120 active patients; Q2 opens at 100. The 20-patient difference is not explained by Q2's recorded discharges/transfers (18 discharged + 4 transferred against only 12 new SOC).

- Severity: warning (data-quality finding, not yet resolved).
- Required reviewer decision: confirm the true Q2 opening census; keep both recovered values on file until reconciled — do not average, replace, or silently pick one.
- Any denominator built on "active census" this quarter must disclose which recovered figure it used until this is reconciled.

q2-ex-met-hosp Acute Care Hospitalization Rate — Q2 (aggregate masks subgroup)

SOURCE	POSTURE	AS OF	VALIDATION
QM-APR-001	Recovered source	2026-06-30	validated

Apr 3.1%, May 2.0%, Jun 2.0% — status "within" target ($\leq 4\%$), no PIP trigger. FLAGGED: aggregateMasksSubgroup = true.

- Provenance derivation note: "Favorable aggregate hospitalization masks worsening documentation/med-rec/complaint subgroups this quarter."
- A metric flagged aggregateMasksSubgroup must not be accepted as sufficient grounds for closure on its own.

PART B - EVIDENCE

Evidence Detail - continued 4

q2-ex-met-oasis OASIS Accuracy Rate — Q2

SOURCE	POSTURE	AS OF	VALIDATION
QM-APR-002	Recovered source	2026-06-30	validated

Apr 84.8%, May 82.0%, Jun 84.1% — target ≥90%; status "below"; PIP trigger true.

- Below-target across all three months; no sustained improvement trend.

q2-ex-met-medrec Medication Reconciliation at SOC/ROC — Q2 (critical, worsening)

SOURCE	POSTURE	AS OF	VALIDATION
QM-APR-005	Recovered source	2026-06-30	validated

Apr 77.8%, May 73.3%, Jun 70.6% — target ≥95%; status "critical"; PIP trigger true.

- Provenance derivation note: "3rd consecutive quarter below threshold; worsening."
- This is the metric underlying carried-forward PIP-Q1-004 — see q2-ex-pip-004-q2.

q2-ex-met-poc POC Documentation Completeness — Q2

SOURCE	POSTURE	AS OF	VALIDATION
QM-APR-004	Recovered source	2026-06-30	validated

Apr 83.7%, May 79.4%, Jun 77.1% — target ≥90%; status "below"; deteriorating trend per provenance note.

- Deteriorating month over month; no PIP has yet been opened on this metric specifically.

PART B - EVIDENCE

Evidence Detail - continued 5

q2-ex-met-missedvisit Missed Visit Rate — Q2 (visit-level denominator)

SOURCE	POSTURE	AS OF	VALIDATION
QM-APR-006	Recovered source	2026-06-30	validated

Apr 28/876 = 3.2%; May 34/892 = 3.8%; Jun 44/979 = 4.5% — target ≤3%; status "below"; worsening trend.

- The denominator here is scheduled/expected VISITS for the month (e.g. 979 in June), not active patient census.
- Do not substitute the active-census figure (q2-ex-population-q2) for the visit denominator when recomputing this rate.

q2-ex-met-satisfaction Patient Satisfaction (Overall) — Q2

SOURCE	POSTURE	AS OF	VALIDATION
QM-APR-008	Recovered source	2026-06-30	validated

Apr 82%, May 80%, Jun 79% — target ≥85%; status "below"; no PIP trigger recorded this quarter.

- Numerator/denominator not tracked for this survey-based metric in the recovered source.

q2-ex-met-wound-q1 Wound Infection Rate — Q1 (not tracked in Q2 metrics)

SOURCE	POSTURE	AS OF	VALIDATION
CALCULATED — monthly numerator/denominator ambiguous in the concatenated source; quarter status recovered as a PIP-trigger spike per QM-Q1-020/021.	Calculated from recovered source	2026-03-31	provisional

Jan 0.7%, Feb 3.3%, Mar 2.9% — target ≤5%; status "critical" in Q1; drove PIP-TRIG-Q1-006.

- This series is not carried into the Q2 quality-metric set (Q2_METRICS has no WOUND_INFECTION_RATE entry).
- Do not import this Q1-only metric into a Q2 denominator or trend calculation as if it were a Q2 observation.

PART B - EVIDENCE

Evidence Detail - continued 6

q2-ex-feeder-cl Q1 Feeder Audit — Clinical Quality (wound cluster)

SOURCE	POSTURE	AS OF	VALIDATION
AUD-Q1-CL-008	Recovered source	2026-04-02	validated

Signed 2026-04-02: wound infection cluster — 4 infections in February across 3 clinicians.

- Relevant to the Q1 wound-infection PIP, not to this quarter's medication-reconciliation carry-forward or census matters.

q2-ex-feeder-co Q1 Feeder Audit — Compliance/Billing (overpayment)

SOURCE	POSTURE	AS OF	VALIDATION
AUD-Q1-CO-005	Recovered source	2026-04-01	validated

Signed 2026-04-01: overpayment check identified \$1,200; voluntary refund initiated.

- A billing/compliance matter, not a quality, census, PIP, or personnel matter — not evidence for any decision node this quarter.

q2-ex-feeder-gap-q2 Zero Feeder Audits Recovered for Q2

SOURCE	POSTURE	AS OF	VALIDATION
CALCULATED — derived from recovered source figures for this exercise; not itself a source-recovered record.	Calculated from recovered source	2026-07-02	unvalidated

The recovered Q2 dataset contains zero feeder-audit records, in contrast to 2 recovered for Q1.

- The "feeder audits present" packet-readiness gate should not be satisfied by a zero-count quarter without an explicit exception being recorded.

PART B - EVIDENCE

Evidence Detail - continued 7

q2-ex-ae-001 AE-Q1-001 — CHF Exacerbation (RCA complete, CAP assigned)

SOURCE	POSTURE	AS OF	VALIDATION
AE-Q1-001	Recovered source	2026-01-18	validated

Severity High; RCA complete; root cause escalation-protocol adherence; CAP already assigned and closed out of this quarter's open escalation set.

- This event's RCA is already complete and its CAP is not part of this quarter's open Board decision — do not cite it as the driver for GV-WF-08 this quarter.

q2-ex-ae-004 AE-Q1-004 — Sepsis (RCA in progress; systemic root cause; still open into Q2)

SOURCE	POSTURE	AS OF	VALIDATION
AE-Q1-004	Recovered source	2026-03-03	provisional

Severity Critical; RCA-Q1-003 in progress (not complete); systemic root cause: escalation/reporting-chain failure; linked CAP-Q1-003; personnel matter separated (see q2-ex-disc-005).

- Infection signs were documented on a prior visit note but not escalated for 36 hours.
- A systemic-root-cause adverse event with an RCA still in progress remains a live GV-WF-08 escalation this quarter, not a closed matter.
- Linked infection record: INF-Q1-005 (sepsis secondary to wound, status "Under Investigation").

q2-ex-cmp-005-q1 COMP-Q1-005 — Interpreter Not Arranged (closed, escalated to GB)

SOURCE	POSTURE	AS OF	VALIDATION
COMP-Q1-005	Recovered source	2026-03-07	validated

Closed in 12 days (outside the 5-day standard); escalated to Governing Body; status "Closed — escalated to GB."

- Already closed — not part of the open complaint carry-forward count.

PART B - EVIDENCE

Evidence Detail - continued 8

q2-ex-cmp-006-q1 COMP-Q1-006 — Scheduling/Late Arrivals (STILL OPEN)

SOURCE	POSTURE	AS OF	VALIDATION
COMP-Q1-006	Recovered source	2026-03-22	provisional

Status "Open — CAP initiated." Not resolved within Q1; days-to-resolve not recorded; not escalated to GB.

- This complaint remains open as of the Q2 meeting and must be counted in this quarter's open-complaint total.

q2-ex-cmp-004-q2 MOCK-CMP-004 — 3 Consecutive Missed HHA Visits

SOURCE	POSTURE	AS OF	VALIDATION
MOCK-CMP-004	Recovered source	2026-05-14	provisional

Status "Open — under review"; not escalated to GB; not resolved within 5 days.

- Open as of the Q2 meeting.

q2-ex-cmp-007-q2 MOCK-CMP-007 — RN Did Not Explain Med Change at SOC

SOURCE	POSTURE	AS OF	VALIDATION
MOCK-CMP-007	Recovered source	2026-06-17	provisional

Status "Open — coaching scheduled"; not escalated to GB; not resolved within 5 days.

- Open as of the Q2 meeting.

PART B - EVIDENCE

Evidence Detail - continued 9

q2-ex-decoy-cover-memo Packet Cover Memo — "2 Complaints, Fully Resolved, 0 Carried Forward"

SOURCE	POSTURE	AS OF	VALIDATION
UNVERIFIED — origin/author not established; not a labeled recovered or supplemental record. Do not rely on this as controlling evidence.	Not recovered / unresolved	2026-07-08	conflicting

An unsigned, unattributed cover memo attached to the front of the Q2 packet claims only 2 complaints this quarter, all resolved, with nothing carried forward from Q1.

- This memo's claim directly conflicts with q2-ex-cmp-006-q1 (still open), q2-ex-cmp-004-q2, and q2-ex-cmp-007-q2, none of which are resolved.
- The memo carries no author, no sign-off, and no source-record citations — it is unverified, not a labeled supplemental record, and must not be treated as controlling.

q2-ex-piptrig-004 PIP-TRIG-Q1-004 — Medication Reconciliation Gap Trigger

SOURCE	POSTURE	AS OF	VALIDATION
PIP-TRIG-Q1-004	Recovered source	2026-04-02	validated

Severity Critical; med rec 72–79% vs ≥95%; systemic process gap; recommended action: PIP.

- This is the originating trigger for PIP-Q1-004, carried forward into Q2 (see q2-ex-pip-004-q2).

q2-ex-pip-004-q1 PIP-Q1-004 — Medication Reconciliation Improvement (baseline)

SOURCE	POSTURE	AS OF	VALIDATION
PIP-Q1-004	Recovered source	2026-04-09	validated

Baseline: Q1 close 79.2% (target ≥95%). Sustainability criterion: two consecutive quarters ≥95%. CAP-Q1-002 opened. Return date 2026-07-10.

- Not closure-eligible at authorization; this is the Q1 starting point for tracking into Q2.

PART B - EVIDENCE

Evidence Detail - continued 10

q2-ex-pip-004-q2 PIP-Q1-004 (carry-forward) — Medication Reconciliation Improvement

SOURCE	POSTURE	AS OF	VALIDATION
PIP-Q1-004	Recovered source	2026-06-30	provisional

Current-quarter evidence: Q2 med rec 70.6% in June — a 3rd consecutive quarter below the ≥95% objective and NOT improving. closureEligible: false. New return date: 2026-10-09.

- Sustainability criterion (two consecutive quarters ≥95%) has not been met in any quarter to date.
- No gbDecision has yet been recorded for this quarter's review.

q2-ex-cap-002 CAP-Q1-002 — Med Rec Protocol Re-education + Checklist

SOURCE	POSTURE	AS OF	VALIDATION
CAP-Q1-002	Recovered source	2026-04-30	provisional

Owner Q1:MOCK-CLIN-0027 (Clinical Manager). Due 2026-04-30. Status "Open."
effectivenessDemonstrated: false.

- Owner ID is quarter-scoped ("Q1:MOCK-CLIN-0027") per DQ-2026-001 — the same raw ID denotes a different person in Q2.
- Remains open and not yet demonstrated effective as of the Q2 review.

q2-ex-cap-003 CAP-Q1-003 — Wound Infection Control Protocol Revision

SOURCE	POSTURE	AS OF	VALIDATION
CAP-Q1-003	Recovered source	2026-04-23	provisional

Owner Q1:MOCK-CLIN-0017 (feeder-audit reviewer). Due 2026-04-23. Status "Open."
effectivenessDemonstrated: false.

- Tied to the Q1 wound-infection PIP, not to this quarter's medication-reconciliation carry-forward decision.

PART B - EVIDENCE

Evidence Detail - continued 11

q2-ex-sup-budget Budget Authorization Request — CAP Resourcing

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-05-20	provisional

Management requests Board authorization of the staffing and system resources the current CAP identified as required to sustain the fix.

- Requested resources: 0.5 FTE quality-review staffing and a documentation-audit tool license.
- The CAP's own effectiveness criteria assume these resources are in place by next quarter close.
- Without authorization, the CAP's effectiveness cannot be sustained per its own stated design.

q2-ex-disc-004 DISC-TRIG-Q1-004 — Unauthorized Documentation Change (restricted)

SOURCE	POSTURE	AS OF	VALIDATION
DISC-TRIG-Q1-004	Recovered source	2026-03-15	provisional

Clinician ref Q1:MOCK-CLIN-0003. Visit note amended 11 days after entry, no documented reason or countersignature — potential retroactive alteration. Status "Under Investigation."

- Severity Critical. Still under investigation as of the Q2 meeting — not yet resolved.

q2-ex-disc-005 DISC-TRIG-Q1-005 — Failure to Follow Escalation Chain (restricted)

SOURCE	POSTURE	AS OF	VALIDATION
DISC-TRIG-Q1-005	Recovered source	2026-03-04	provisional

Clinician ref Q1:MOCK-CLIN-0004. Sepsis signs documented 2026-03-02 not escalated for 36 hours; patient hospitalized (linked AE-Q1-004). Status "RCA pending — disciplinary hold."

- Severity Critical. Directly linked to the still-open RCA in q2-ex-ae-004 — this is a patient-safety-linked personnel matter.

PART B - EVIDENCE

Evidence Detail - continued 12

q2-ex-dq-001-identity Data-Quality Finding: Clinician IDs Reused for Different People

SOURCE	POSTURE	AS OF	VALIDATION
DQ-2026-001	Recovered source	2026-07-01	conflicting

The MOCK-CLIN-* roster is fully reassigned between Q1 and Q2. Q1 MOCK-CLIN-0027 = James T. Reeves (Clinical Manager); Q2 MOCK-CLIN-0026 = Angela Morales (Clinical Manager/DON). Same raw IDs denote different people.

- Severity: critical.
- Required reviewer decision: approve a versioned alias/reconciliation table before any cross-quarter person-level analysis; do NOT merge on raw ID.
- Directly affects CAP ownership continuity (q2-ex-cap-002) and any cross-quarter accountability tracking — always cite quarter-scoped IDs (e.g. "Q1:MOCK-CLIN-0027").

q2-ex-dq-003-missing-decision Data-Quality Finding: No GB Motion/Vote Record for Q1 Escalations

SOURCE	POSTURE	AS OF	VALIDATION
DQ-2026-003	Recovered source	2026-04-09	unvalidated

GB-Q1-001 records 4 items escalated to the Board (sepsis case AE-Q1-004, interpreter complaint COMP-Q1-005, OASIS accuracy trend, doc-to-claim mismatch) but the source contains no motion/vote/directive record memorializing the Board's Q1 decision on them.

- A labeled synthetic supplement (SUPP-GB-MOTION-Q1-001, not reproduced in this quarter's book) provides a motion shell for UAT workflow purposes only — it is not a real Board decision record.
- This is background context: it does not itself require a Q2 decision, but illustrates why this quarter's motions must be fully and contemporaneously documented.

q2-ex-sup-adm Administrator Change Notice

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-05-14	provisional

The incumbent Administrator has resigned effective end of quarter; an interim successor is proposed.

- Incumbent Administrator resignation effective 2026-06-30.
- Proposed interim Administrator meets the qualification requirements on file.
- State notification and licensure administrator-of-record update are pending Board approval.

PART B - EVIDENCE

Evidence Detail - continued 13

q2-ex-sup-coi Conflict of Interest Disclosure — Vendor Contract Matter

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-04-02	validated

A director disclosed a financial interest in a vendor whose contract renewal is before the Board this quarter.

- Director holds an equity interest in the vendor entity under consideration for contract renewal.
- Disclosure submitted in advance of the meeting per the conflict-of-interest policy.
- Recusal from deliberation and vote on the vendor matter is the policy-required response.

q2-ex-sup-roster Board Roster Change — Community Member Seat

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-02-10	provisional

A community-member director's term expired and a replacement candidate was proposed for Board seating.

- Outgoing director: term expired 2026-01-31, no disqualifying findings on file.
- Proposed director: community-member category, background/eligibility screen on file.
- Composition mix (clinical / community / financial) remains compliant if seated as proposed.

q2-ex-decoy-q3-leak Preliminary Q3 Metric Snippet (dated after the Q2 meeting)

SOURCE	POSTURE	AS OF	VALIDATION
UNVERIFIED — origin/author not established; not a labeled recovered or supplemental record. Do not rely on this as controlling evidence.	Not recovered / unresolved	2026-08-04	unvalidated

A preliminary figure purporting to show improved medication-reconciliation performance in early Q3, dated 2026-08-04 — after this quarter's meeting (2026-07-10) and Q3 source normalization is still pending.

- This exhibit postdates the Q2 source cutoff (2026-07-10) and must not be cited to justify any Q2 decision, however reassuring it looks.
- Q3 is not yet normalized in the source (normalizationStatus: "pending") — treat as unresolved regardless of date.

PART B - EVIDENCE

B3.14

Evidence Detail - continued 14

q2-ex-decoy-accreditation Agency Accreditation Status (not at issue this quarter)

SOURCE	POSTURE	AS OF	VALIDATION
SVHHA-001	Recovered source	2026-07-01	validated

Sunrise Valley Home Health Agency — ACHC accreditation active, expires 2027-06-30.

- Not due or at risk this quarter — do not select GV-WF-11 (Licensure & Accreditation Renewal) on the strength of this exhibit alone.

PART B - EVIDENCE

Conflict, Gap, and Reliance Register

q2-census-boundary

The Q1 close and Q2 opening census do not reconcile

Question: Which census value may support a cross-quarter rate when the 20-patient gap is unexplained?

Why it matters: Using either value without the limitation can distort cross-quarter population-based rates.

Affected evidence: q2-ex-population-q1, q2-ex-population-q2

Cutoff: 2026-07-10

q2-complaint-cover

The cover memo understates open complaints

Question: Can an unsigned cover memo override a sourced complaint record that remains open?

Why it matters: The Board's reliance scope changes if an open complaint is hidden by an unattributed summary.

Affected evidence: q2-ex-decoy-cover-memo, q2-ex-cmp-006-q1

Cutoff: 2026-07-10

q2-signoff-substitution

Q1 sign-offs cannot substitute for missing Q2 sign-offs

Question: Does a complete prior-quarter sign-off bundle validate the current Q2 packet?

Why it matters: A prior-period approval does not establish review or validation of the current packet.

Affected evidence: q2-ex-signoff-status, q2-ex-q1-signoffs

Cutoff: 2026-07-10

PART B - EVIDENCE

PART A

Executive Narrative

Every statement below is anchored to a Part B source or decision record.

PART A - EXECUTIVE NARRATIVE

Evidence, Risk, Decisions, and Readiness

Evidence story

q2-ex-meeting-control: QA-WF-03 — Quarterly QAPI Committee Review. Meeting date 2026-07-10; agenda deadline 2026-07-07; feeder-audit deadline 2026-07-02; GB package deadline 2026-07-03; minutes due 2026-07-17 (owner: Clinical Manager). Recovered source

q2-ex-signoff-status: The Q2 quarter record recovers 0 of the 3 required sign-offs (Administrator, Clinical Manager, QAPI Committee Chair). The Q2 packet cover page nonetheless bears a "Reviewed" stamp. Calculated from recovered source

q2-ex-q1-signoffs: All three Q1 required sign-offs are recovered and signed on the Q1 meeting date (2026-04-09): Administrator (Q1:MOCK-CLIN-0028), Clinical Manager (Q1:MOCK-CLIN-0027), QAPI Committee Chair (Q1:MOCK-CLIN-0026). Recovered source

q2-ex-roster-baseline: Seven seats exist by bylaws; one community-member seat is currently vacant pending the replacement proposed in q2-ex-sup-roster, leaving 6 directors formally seated as of the Q2 meeting. Supplemental synthetic UAT

q2-ex-attendance-log: 5 of 6 seated directors are present. Director F (community-member seat, vendor equity interest disclosed) is present at call-to-order but is designated to step out for the vendor-contract deliberation and vote. Supplemental synthetic UAT

q2-ex-population-q1: Active at start 105; active at close 120; new SOC 22; discharged 14; transferred 3; episodes tracked 127; clinician count 28. Recovered source

Risk story

2 unresolved and 4 conflicting exhibits require explicit reliance judgment. 3 authored conflict groups affect the case.

Decisions and accountability

18 case-supported decision nodes require evidence-linked action. Required workflows: GV-WF-01, GV-WF-02, GV-WF-03, GV-WF-05, GV-WF-06, GV-WF-07, GV-WF-08, GV-WF-09.

Reliance determination

This artifact remains REVIEW REQUIRED. It does not claim lock readiness, a completed vote, or official approval.

Human Review and Production/UAT Checklist

- Render and inspect every page for clipping, overlap, blank pages, broken glyphs, and unreadable tables.
- Compare every displayed fact to the normalized case-pack source.
- Confirm searchable text, tagged structure, document title/language, bookmarks, and clickable links.
- Confirm every page carries the synthetic classification.
- Confirm no fake signature, vote, quorum, approval, or completed action is presented.
- Approve for UAT only through an authorized human review; generation alone is insufficient.

Human review required

No signature is rendered here. Approval status remains REVIEW REQUIRED until an authorized reviewer records findings outside this generated artifact.
