

GOVERNING BODY TABLETOP PACKET

COVER

Q4 2026 Tabletop Packet

CARE INDEED HOME HEALTH CARE, INC.

Q4 2026 — Closure Is Not the Same as Control

The annual narrative says resolved. The record says: some of it, not all of it, and not the part you'd assume.

FABLE GENERATED REVIEW REQUIRED SYNTHETIC MOCK DATA - NO REAL PHI - NOT FOR PRODUCTION

PERIOD	Q4 2026	SOURCE CUTOFF	2026-12-31
PACKET ID	CI-GB-TT-Q4-2026-V1-0-3	VERSION	1.0.3
CASE-PACK ID	tabletop2026-q4	PASS MODEL	950 / 1000 plus critical-error rules

SYNTHETIC MOCK DATA - NO REAL PHI - NOT FOR PRODUCTION

All records in this packet are approved synthetic case-pack data. This packet is not production evidence and contains no legal signature, vote, quorum determination, or completed action beyond what the normalized case pack supports.

ARTIFACT STATUS

Review required

SOURCE MODEL

tabletop2026-q4

RELIANCE

Not approved for UAT until human visual and evidentiary review is complete

Use limitation

The Q1 exemplar supplied by the user informed typography, color, hierarchy, and table treatment only. No fictional name, metric, signature, quorum, vote, approval, or lock-ready claim from that exemplar is a factual source for this packet.

Evidence integrity

Unresolved values remain unresolved.
Supplemental UAT records remain labeled. Post-cutoff items do not rewrite historical measurement posture.

Approval boundary

Viewing this PDF does not approve the case, satisfy readiness, create evidence, or complete a tabletop attempt.

FRONT MATTER

How to Read This Packet

- Evidence first.**

Review source posture, cutoff, conflicts, and traceability before reading a conclusion.
- Executive narrative second.**

Each narrative statement points back to a Part B exhibit or decision node.
- Forms and outputs last.**

Forms are listed only when the case pack or workflow requires them; no blank forms are added.

Recovered source

Calculated from recovered source

Supplemental synthetic UAT

Not recovered / unresolved

FRONT MATTER

QA Reconciliation and Readiness Summary

Recovered source

10 / 42

Numerator: recovered exhibits. Denominator: all case exhibits.

Calculated

0 / 42

Numerator: calculated exhibits. Denominator: all case exhibits.

Supplemental UAT

32 / 42

Numerator: supplemental UAT exhibits. Denominator: all case exhibits.

Unresolved

0 / 42

Numerator: unresolved exhibits. Denominator: all case exhibits.

Control	Current posture	Required review
Source cutoff	2026-12-31	Verify every displayed record is allowed through this cutoff.
Conflict groups	0	Resolve reliance by affected matter; never smooth conflicts.
Conflicting exhibits	5	Confirm each is visible and linked to its source.
Required workflows	9	Confirm workflow coverage is case-supported.
Artifact disposition	Review required	Human visual and evidentiary review is mandatory before approved_for_uat.

PART B

Controlling Evidence

Build and validate the evidence record before relying on an executive narrative.

PART B - EVIDENCE

PART B - EVIDENCE

Evidence Detail

EX-Q4-001 FY2026 Annual QAPI Self-Assessment — Executive Summary

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-12-28	unvalidated

Management's year-end narrative: all 10 FY2026 PIPs resolved, broad metric improvement, the Q1 sepsis-linked personnel matter "resolved via separation," and complaints 100% within policy timeframe.

- Claims: "All 10 performance-improvement projects opened in FY2026 have been resolved and may be closed."
- Claims: "The personnel matter arising from the Q1 sepsis escalation failure has been resolved via separation."
- Claims: "100% of FY2026 complaints were resolved within the policy timeframe."
- Recommends the Board formally close QAPI oversight of the medication-reconciliation and wound-infection workstreams this meeting.
- Authored for this case because QAPI_2026.Q4 is not yet normalized in the source fixture — not a recovered management document.

EX-Q4-002 Annual PIP Closure Log — 10 of 10 Reported Resolved

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-12-28	unvalidated

Tabular log listing 10 FY2026 PIPs, each marked "Resolved," with no stratum-level sustainability detail attached in the log itself.

- Includes PIP-Q1-004 (Medication Reconciliation) — marked Resolved.
- Includes PIP-Q1-006 (Wound Infection Control) — marked Resolved.
- 8 additional FY2026 PIPs listed by id/title only, each marked Resolved, with no evidence attached in this log.
- The log itself is not evidence of sustainability — it asserts a conclusion; the Board must trace each claim to its supporting record.

EX-Q4-003 PIP-Q1-004 Baseline & Objective — Medication Reconciliation

SOURCE	POSTURE	AS OF	VALIDATION
PIP-Q1-004	Recovered source	2026-04-09	validated

Baseline 79.2% at Q1 close against a ≥95% objective; approved sustainability criterion is two consecutive quarters ≥95%.

- Baseline: Q1 close 79.2% (target ≥95%).
- Approved objective: ≥95% medication reconciliation at SOC/ROC.
- Sustainability criterion approved by the Board: two consecutive quarters at or above 95%.

PART B - EVIDENCE

Evidence Detail - continued 2

EX-Q4-004 CAP-Q1-002 — Medication Reconciliation Corrective Action

SOURCE	POSTURE	AS OF	VALIDATION
CAP-Q1-002	Recovered source	2026-04-30	validated

Protocol re-education plus a SOC/ROC checklist, owned by the Clinical Manager, due 2026-04-30.

- Description: med-rec protocol re-education + checklist at SOC/ROC.
- Owner: Clinical Manager (Q1 role holder). Due date: 2026-04-30.

EX-Q4-005 PIP-Q1-006 Baseline & Objective — Wound Infection Control

SOURCE	POSTURE	AS OF	VALIDATION
PIP-Q1-006	Recovered source	2026-04-09	validated

Baseline spike to 10-13% against a ≤5% objective; approved sustainability criterion is two consecutive quarters ≤5% in every named wound stratum.

- Baseline: Q1 spike to 10-13% (target ≤5%).
- Approved objective: ≤5% wound infection rate.
- Sustainability criterion approved by the Board: two consecutive quarters ≤5% in all named wound strata — not a quarter-close snapshot.

EX-Q4-006 CAP-Q1-003 — Wound Infection Protocol Revision + Mandatory In-Service

SOURCE	POSTURE	AS OF	VALIDATION
CAP-Q1-003	Recovered source	2026-04-23	validated

Protocol revision plus a mandatory in-service for all clinicians, owned by the Clinical Manager, due 2026-04-23.

- Description: wound-infection control protocol revision; mandatory in-service.
- Owner: Clinical Manager (Q1 role holder). Due date: 2026-04-23.

PART B - EVIDENCE

Evidence Detail - continued 3

EX-Q4-007 Q2 Medication-Reconciliation Carry-Forward — Still Below Threshold

SOURCE	POSTURE	AS OF	VALIDATION
MOCK-AUD-QA-005	Recovered source	2026-07-10	validated

As of Q2 close, medication reconciliation was 70.6% (June) — a third consecutive quarter below threshold, not yet improving.

- Q2 evidence: 70.6% (June) — third consecutive quarter below the ≥95% objective.
- PIP-Q1-004 return date set to 2026-10-09 pending further evidence.

EX-Q4-008 Disciplinary Matter — Failure to Follow Escalation Chain (Patient Safety)

SOURCE	POSTURE	AS OF	VALIDATION
DISC-TRIG-Q1-005	Recovered source	2026-03-15	validated

Sepsis signs documented on 2026-03-02 were not escalated for 36 hours; the patient was hospitalized. Status at the time: RCA pending, disciplinary hold.

- Clinician reference: MOCK-CLIN-0004 (Q1-scoped id; see DQ-2026-001 — do not merge across quarters on raw id).
- Finding: sepsis signs present on a prior visit note but not escalated for 36 hours.
- Recommended action on file: immediate retraining + supervision. Status on file: RCA pending — disciplinary hold.
- This is the matter EX-Q4-029/030 report on as of Q4 — track by triggerId, not by clinician id.

EX-Q4-009 Adverse Event — Sepsis Hospitalization (RCA In Progress)

SOURCE	POSTURE	AS OF	VALIDATION
AE-Q1-004	Recovered source	2026-03-03	validated

Critical-severity sepsis hospitalization; RCA found infection signs present on a prior visit note but not escalated for 36 hours. Linked to CAP-Q1-003 and to DISC-TRIG-Q1-005.

- Severity: Critical. RCA required: yes. Systemic root cause: escalation/reporting chain failure.
- Linked CAP: CAP-Q1-003. Status as of Q2: RCA In Progress.

PART B - EVIDENCE

Evidence Detail - continued 4

EX-Q4-010 Data-Quality Finding — Census Carry-Forward Does Not Reconcile Q1→Q2

SOURCE	POSTURE	AS OF	VALIDATION
DQ-2026-002	Recovered source	2026-07-10	conflicting

Q1 closed at 120 active patients; Q2 opened at 100. The 20-patient gap is not explained by recorded Q2 discharges/transfers.

- Warning-severity finding, unresolved as of Q2.
- Not itself a required citation for any Q4 decision this meeting — no Q4 decision turns on the Q1→Q2 boundary.

EX-Q4-011 Data-Quality Finding — Clinician IDs Reused for Different People Across Quarters

SOURCE	POSTURE	AS OF	VALIDATION
DQ-2026-001	Recovered source	2026-07-10	conflicting

The MOCK-CLIN-* roster is fully reassigned between Q1 and Q2; the same raw id denotes different people quarter to quarter.

- Critical-severity finding: cross-quarter person-level analysis must not merge on raw clinician id.
- Relevant to how EX-Q4-008 is read, but does not itself resolve or control any Q4 decision.

EX-Q4-012 Disciplinary Matter — Unauthorized Documentation Change After Chart Review (Different Matter)

SOURCE	POSTURE	AS OF	VALIDATION
DISC-TRIG-Q1-004	Recovered source	2026-01-25	validated

A separate Q1 disciplinary matter: a visit note amended 11 days after entry without documented reason. This is NOT the matter reported on in EX-Q4-029/030.

- Clinician reference: MOCK-CLIN-0003 — a different individual and a different triggerId than DISC-TRIG-Q1-005.
- Included to test whether the Board conflates the two open Q1 disciplinary matters.

PART B - EVIDENCE

Evidence Detail - continued 5

EX-Q4-013 Q4 Monthly Wound-Infection Rate — October / November / December

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-12-31	validated

Oct 8.1% (above the ≤5% threshold), Nov 4.2% (within), Dec 3.6% (within). The quarter-close snapshot alone reads favorable.

- October: 8.1% — critical, above the ≤5% threshold.
- November: 4.2% — within threshold.
- December: 3.6% — within threshold.
- A reviewer looking only at the December (quarter-end) figure would see a passing rate; the October month is the one that breaks the quarter.

EX-Q4-014 Q4 Population & Census Summary

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-12-31	validated

Active at Q4 start: 168. Active at Q4 close: 200. Clinician count: 34. Census grew for a third consecutive quarter.

- activeAtStart 168, activeAtClose 200, clinicianCount 34.
- Census-at-close (200) is a snapshot count, not a monthly at-risk denominator — see EX-Q4-017.

EX-Q4-015 PIP-Q1-004 Q4 Sustainability Evidence — Medication Reconciliation

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-12-31	validated

Oct 95.2%, Nov 96.1%, Dec 96.8% — every Q4 month at or above the 95% objective.

- All three Q4 months individually meet or exceed the ≥95% objective.
- Paired with EX-Q4-016 (Q3), this is the second of two consecutive qualifying quarters.

PART B - EVIDENCE

Evidence Detail - continued 6

EX-Q4-016 PIP-Q1-004 Q3 Sustainability Addendum — Medication Reconciliation

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-09-30	validated

Q3 quarter average 95.5% — the first of the two consecutive qualifying quarters required for closure.

- Q3 average 95.5%, at or above the ≥95% objective in every Q3 month.
- Authored to carry the Q3 evidence forward since QAPI_2026.Q3 is also not yet normalized in the source fixture.

EX-Q4-017 Wound-Infection Sustainability Test — Monthly-Stratum Explainer

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-12-31	validated

The Board-approved criterion (EX-Q4-005) requires ≤5% in every named month/stratum across two consecutive qualifying quarters. October's 8.1% breaches the criterion within Q4 itself.

- Because the criterion is evaluated per named stratum (here: per month), a single above-threshold month disqualifies the whole quarter as a "qualifying quarter" — regardless of how the other months or the quarter average look.
- Q4 cannot count as a qualifying quarter for PIP-Q1-006. Two consecutive qualifying quarters have not yet been demonstrated.
- This is the direct rebuttal to EX-Q4-001/002's claim that PIP-Q1-006 is resolved.

EX-Q4-018 CAP-Q1-003 Effectiveness Attestation — Q4

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-12-15	validated

27 of 28 required clinicians completed the mandatory wound-infection in-service; 1 remains outstanding.

- Completion: 27/28 (96.4%). One clinician outstanding — see EX-Q4-019.
- The CAP's own design requires full completion, not a completion rate, before effectiveness is attested.

PART B - EVIDENCE

Evidence Detail - continued 7

EX-Q4-019 Training Exception Notice — Clinician Non-Completion

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-12-10	validated

One clinician has been overdue for the CAP-Q1-003 mandatory wound-infection in-service since Q3; a second overdue notice was reissued 2026-12-10; not yet completed as of packet close.

- Overdue since Q3. Overdue notice reissued 2026-12-10. Not completed as of 2026-12-31.
- Until completed, CAP-Q1-003 effectiveness cannot be fully attested — see RTF-BC-01 principle.

EX-Q4-020 CAP-Q1-002 Effectiveness Attestation — Complete

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-12-15	validated

100% completion of the medication-reconciliation re-education and checklist rollout; effectiveness demonstrated.

- Completion: 28/28 (100%).
- Effectiveness demonstrated — this supports (does not by itself decide) PIP-Q1-004 closure eligibility alongside EX-Q4-015/016.

EX-Q4-021 Open CAP Carry-Forward Log — Into 2027

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-12-30	validated

Two CAPs remain open past year-end: CAP-Q1-003 (wound infection, pending the training exception) and a new fall-prevention CAP opened in Q4, due Q1 2027.

- CAP-Q1-003: open, pending EX-Q4-019 resolution.
- New fall-prevention CAP (see EX-Q4-025): opened Q4, due date to be set by the Board tonight (DN-12).
- This log is itself the direct rebuttal to any reading of EX-Q4-001/002 as "zero open corrective actions."

PART B - EVIDENCE

Evidence Detail - continued 8

EX-Q4-022 Adverse Event Log — Falls, October

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-10-24	validated

Two falls in October, one with minor injury; both occurred within days of a medication change with no repeat fall-risk reassessment documented.

- 2 falls. 1 with minor injury (bruising, no fracture).
- Both preceded by a medication change in the prior 5 days; no repeat fall-risk reassessment on file for either.

EX-Q4-023 Adverse Event Log — Falls, November

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-11-21	validated

Two more falls in November, same pattern: recent medication change, no repeat fall-risk reassessment. Different patients and clinicians, same care team.

- 2 falls, no injury reported.
- Same pattern as October: recent medication change, no repeat fall-risk reassessment.
- Different clinicians than October — rules out a single-clinician explanation.

EX-Q4-024 Adverse Event Log — Falls, December

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-12-18	validated

Two more falls in December; an RCA is opened given the third consecutive month of the same pattern.

- 2 falls. RCA required: yes.
- Preliminary finding flags a common gap: fall-risk reassessment is not being repeated after medication changes agency-wide.

PART B - EVIDENCE

Evidence Detail - continued 9

EX-Q4-025 Fall Pattern RCA Summary — Q4

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-12-20	validated

Six falls across October-December share a systemic root cause: fall-risk reassessment is not being repeated after medication changes. Recommends a new PIP and CAP, and flags the resourcing already requested in EX-Q4-042 as the mechanism to sustain it.

- 6 falls, October-December, across multiple patients and clinicians.
- Systemic root cause: fall-risk reassessment protocol not triggered after medication changes.
- Recommendation: open a new PIP + CAP; resourcing (0.5 FTE quality-review time) already requested in EX-Q4-042 would sustain the fix.
- This finding does not appear anywhere in EX-Q4-001 (see EX-Q4-026).

EX-Q4-026 Annual Self-Assessment — Adverse Event Section (Falls Omitted)

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-12-28	unvalidated

The annual self-assessment's adverse-event section states "no new systemic adverse-event findings this year" — it does not mention the Q4 fall cluster or RCA at all.

- Verbatim posture of the section: "no new systemic adverse-event findings this year."
- Directly conflicts with EX-Q4-022 through EX-Q4-025.

EX-Q4-027 Complaint Log — Q4 New Intake

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-12-31	validated

Three Q4 complaints: two resolved within 5 days; one — care-coordination, opened 2026-12-18 — remains open at year-end with resolution expected January 2027.

- 2 complaints resolved within 5 days (policy timeframe met).
- 1 complaint open: category "care coordination — medication change not communicated to family," opened 2026-12-18, status open as of 2026-12-31, resolution expected January 2027.
- A resolution "expected" in January 2027 is a plan, not a completed fact — do not treat it as already resolved.

PART B - EVIDENCE

Evidence Detail - continued 10

EX-Q4-028 Annual Self-Assessment — Complaint Resolution Claim

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-12-28	unvalidated

The self-assessment states "100% of FY2026 complaints were resolved within the policy timeframe" — contradicted by the complaint still open in EX-Q4-027.

- Verbatim claim: "100% of FY2026 complaints were resolved within the policy timeframe."
- Directly conflicts with EX-Q4-027, which shows one complaint open at year-end.

EX-Q4-029 Restricted Personnel Matter Status Update — Q4 (Executive Session)

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-12-22	validated

The separation process tied to DISC-TRIG-Q1-005 has been initiated but is not finalized; an interim supervision plan is in place; no final separation date is set.

- Status: separation in process, not finalized. Interim supervision plan in effect since Q3.
- No final separation date has been set as of 2026-12-22.
- Restricted to executive session — the individual's identity and clinical detail are not for the public record.

EX-Q4-030 Annual Self-Assessment — Personnel/Accountability Claim

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-12-28	unvalidated

The self-assessment states the matter is "resolved via separation" — contradicted by EX-Q4-029, which shows the separation still in process.

- Verbatim claim: "resolved via separation."
- Directly conflicts with EX-Q4-029's "in process, not finalized" status.

PART B - EVIDENCE

Evidence Detail - continued 11

EX-Q4-031 Board Roster Change — Community Member Seat

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-02-10	validated

A community-member director's term expired and a replacement candidate was proposed for Board seating.

- Outgoing director: term expired 2026-01-31, no disqualifying findings on file.
- Proposed director: community-member category, background/eligibility screen on file.
- Composition mix (clinical / community / financial) remains compliant if seated as proposed.

EX-Q4-032 Conflict of Interest Disclosure — Vendor Contract Matter

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-04-02	validated

A director disclosed a financial interest in a vendor whose contract renewal is before the Board this quarter.

- Director holds an equity interest in the vendor entity under consideration for contract renewal.
- Disclosure submitted in advance of the meeting per the conflict-of-interest policy.
- Recusal from deliberation and vote on the vendor matter is the policy-required response.

EX-Q4-033 Licensure Renewal Status

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-03-05	validated

The agency's state license renewal is due within the quarter; accreditation renewal follows next quarter.

- State license renewal application status: submitted, decision pending.
- Accreditation renewal survey window opens next quarter.
- No lapse has occurred yet; Board visibility is requested to track the pending decision.

PART B - EVIDENCE

Evidence Detail - continued 12

EX-Q4-034 Annual Governance Training Attestation Status

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-01-15	validated

Annual Board training/attestation cycle status for the current roster.

- All seated directors as of 2026-01-15 have an outstanding annual attestation requirement.
- One newly seated director additionally requires onboarding training before their first vote.

EX-Q4-035 Packet Readiness Confirmation

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-04-25	validated

Confirmation record that the quarter's QAPI packet passed the readiness gates required to convene the Board.

- Source integrity checked, meeting control assembled, feeder audits present, required sign-offs complete.
- No unresolved critical data-quality defect blocks convening on this packet.

EX-Q4-042 Budget Authorization Request — CAP Resourcing

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-05-20	validated

Management requests Board authorization of the staffing and system resources the current CAP identified as required to sustain the fix.

- Requested resources: 0.5 FTE quality-review staffing and a documentation-audit tool license.
- The CAP's own effectiveness criteria assume these resources are in place by next quarter close.
- Without authorization, the CAP's effectiveness cannot be sustained per its own stated design.

PART B - EVIDENCE

Evidence Detail - continued 13

EX-Q4-036 Administrator Change Notice

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-05-14	unvalidated

The incumbent Administrator has resigned effective end of quarter; an interim successor is proposed.

- Incumbent Administrator resignation effective 2026-06-30.
- Proposed interim Administrator meets the qualification requirements on file.
- State notification and licensure administrator-of-record update are pending Board approval.

EX-Q4-037 Clinical Manager Change Notice

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-06-01	unvalidated

The Clinical Manager role requires backfill following an internal transfer.

- Incumbent Clinical Manager transferred to a non-clinical role effective 2026-06-15.
- Proposed successor holds the required license and clinical-manager qualification on file.
- A coverage gap plan is proposed for the transition period.

EX-Q4-038 Proposed Scope of Services Change

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-04-18	unvalidated

Management proposes adding a new service line not currently within the agency's licensed scope.

- Proposed addition: a therapy service line not on the current license.
- State licensure amendment and accreditation notification are prerequisites, not follow-up steps.
- No operational start date may precede Board approval and the licensure amendment.

PART B - EVIDENCE

Evidence Detail - continued 14

EX-Q4-039 Proposed Change of Ownership

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-07-01	unvalidated

A majority-interest transaction is proposed that would constitute a change of ownership.

- Proposed transaction: majority equity transfer to a new parent entity.
- Required notifications: state licensure, Medicare enrollment (CMS-855A), accreditation body.
- Board review and approval is a prerequisite to filing, not a formality after filing.

EX-Q4-040 Media Incident Notice

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-06-22	unvalidated

A local news inquiry was received regarding a patient-care incident already under internal review.

- Inquiry received from a local outlet requesting comment within 48 hours.
- Internal RCA on the underlying incident is in progress and not yet complete.
- No confirmed clinical findings should be disclosed publicly ahead of RCA completion.

EX-Q4-041 PHI Privacy Incident Notice

SOURCE	POSTURE	AS OF	VALIDATION
SUPPLEMENTAL SYNTHETIC UAT RECORD — ADDED FOR WORKFLOW COVERAGE — NOT SOURCE-RECOVERED	Supplemental synthetic UAT	2026-06-25	unvalidated

A vendor reported a possible unauthorized access to a subset of patient records.

- Vendor-reported incident: possible unauthorized access to a limited patient-record subset.
- Business Associate Agreement audit-access terms invoked to determine scope.
- Breach-risk assessment and, if required, notification timelines are pending Board direction.

Conflict, Gap, and Reliance Register

Not applicable

The approved case pack defines no conflict group. Review individual exhibit validation states before relying on that absence.

PART A

Executive Narrative

Every statement below is anchored to a Part B source or decision record.

PART A - EXECUTIVE NARRATIVE

Evidence, Risk, Decisions, and Readiness

Evidence story

EX-Q4-001: Management's year-end narrative: all 10 FY2026 PIPs resolved, broad metric improvement, the Q1 sepsis-linked personnel matter "resolved via separation," and complaints 100% within policy timeframe.

Supplemental synthetic UAT

EX-Q4-002: Tabular log listing 10 FY2026 PIPs, each marked "Resolved," with no stratum-level sustainability detail attached in the log itself.

Supplemental synthetic UAT

EX-Q4-003: Baseline 79.2% at Q1 close against a ≥95% objective; approved sustainability criterion is two consecutive quarters ≥95%.

Recovered source

EX-Q4-004: Protocol re-education plus a SOC/ROC checklist, owned by the Clinical Manager, due 2026-04-30.

Recovered source

EX-Q4-005: Baseline spike to 10-13% against a ≤5% objective; approved sustainability criterion is two consecutive quarters ≤5% in every named wound stratum.

Recovered source

EX-Q4-006: Protocol revision plus a mandatory in-service for all clinicians, owned by the Clinical Manager, due 2026-04-23.

Recovered source

Risk story

0 unresolved and 5 conflicting exhibits require explicit reliance judgment. 0 authored conflict groups affect the case.

Decisions and accountability

20 case-supported decision nodes require evidence-linked action. Required workflows: GV-WF-01, GV-WF-02, GV-WF-05, GV-WF-06, GV-WF-07, GV-WF-08, GV-WF-09, GV-WF-11, GV-WF-14.

Reliance determination

This artifact remains REVIEW REQUIRED. It does not claim lock readiness, a completed vote, or official approval.

QA

Human Review and Production/UAT Checklist

- Render and inspect every page for clipping, overlap, blank pages, broken glyphs, and unreadable tables.
- Compare every displayed fact to the normalized case-pack source.
- Confirm searchable text, tagged structure, document title/language, bookmarks, and clickable links.
- Confirm every page carries the synthetic classification.
- Confirm no fake signature, vote, quorum, approval, or completed action is presented.
- Approve for UAT only through an authorized human review; generation alone is insufficient.

Human review required

No signature is rendered here. Approval status remains REVIEW REQUIRED until an authorized reviewer records findings outside this generated artifact.
