8.2 Surveyor Expectations

CMS surveyors conducting a standard survey under SOM Appendix B will specifically verify:

Evidence that a Governing Body exists and is functioning. Surveyors will request establishing documents and a current membership roster. A sole proprietor must demonstrate individual acceptance of governing body responsibilities.

Evidence that the Governing Body has appointed a qualified Administrator. Surveyors will review Governing Body minutes for appointment documentation and verify qualifications per California state requirements.

Evidence of Clinical Manager oversight. Surveyors will look for Governing Body minutes documenting appointment, reporting, and oversight of clinical services leadership.

Evidence that the Governing Body oversees QAPI. Surveyors will examine whether the Governing Body has reviewed, approved, and acted upon quality data. Passive receipt of reports without documented action is a common deficiency.

Evidence of policy oversight. Surveyors will verify that the Governing Body has approved the agency's policies and that a review cycle exists.

Evidence of fiscal oversight. Surveyors will review whether the Governing Body monitors the agency's financial viability and acts on adverse trends.

Meeting frequency and documentation quality. Surveyors will request all meeting minutes for the survey look-back period and assess completeness, including attendance, quorum, and documented decisions.

8.3 Common Failure Points

No documented evidence that a Governing Body exists or functions.

Risk: Condition-level deficiency under 42 CFR § 484.105. Potential termination of Medicare certification.

Mitigation: Maintain establishing documents, current roster, and quarterly minutes on file and readily accessible.

Governing Body meetings are held but not documented.

Risk: Surveyor will treat undocumented meetings as not having occurred.

Mitigation: Use Appendix D template; complete draft minutes within 14 calendar days.

Governing Body "rubber stamps" reports without documented discussion or action.

Risk: Surveyors will cite passive governance as failure to exercise oversight.

Mitigation: Minutes must document specific discussion points, questions, directives, and assigned follow-up.

Key leadership vacancies are unfilled for extended periods.

Risk: Surveyor will cite failure to ensure adequate management.

Mitigation: Fill or designate interim within 14 calendar days per Section 6.5.

No documented conflict of interest disclosures.

Risk: OIG compliance program requirement; potential survey finding.

Mitigation: Enforce annual disclosure per Appendix B; Compliance Officer tracks compliance.

QAPI plan approved but no evidence of Governing Body review of quality data.

Risk: Surveyor will cite failure of governing body oversight of QAPI (42 CFR § 484.65 cross-reference).

Mitigation: Require quarterly QAPI report presentation and document Governing Body response.
